AFFIDAVIT FOR SEARCH WARRANT

IN THE COUNTY COURT
IN AND FOR LEON COUNTY
STATE OF FLORIDA
COUNTY OF LEON

BEFORE ME, the undersigned Judge of the County Court in and for Leon County Florida, personally came, Investigator Laura Gereg, who, being first duly sworn, deposes and says: That affiant is a citizen and resident of Leon County, Florida, that affiant has reason to believe and does believe certain evidence more particularly described herein below is being kept in or upon a certain premises located in Bedminster, NJ described as follows, to-wit:

Cellco DBA Verizon Wireless information database located at 180 Washington Valley Rd. Bedminster, NJ 07921 (in addition, Cellco DBA Verizon Wireless operates a cellular telephone service with numerous retail sales and business establishments within Leon County, including 2014 Apalachee Parkway, Tallahassee, FL).

Pertaining to cellular telephone numbers, _____, for a period of December 6, 2012 through December 7, 2012. All subscriber information, including name and address, date account created, account status, e-mail address, alternate e-mail address, serial number(s) of handset(s) (i.e. IMEI, ESN, and/or MEID), subscriber identity number(s) (i.e. IMSI, MIN, and/or MSID), Cellular telephone call detail records including all communication events (calls, texts, mms, data, internet). All stored communications or files, including text/SMS messaging, voice mail, e-mail, digital images, which is being kept and used in violation of the Laws of the State of Florida, or evidence of a crime to wit the law prohibiting Sexual Battery, Chapter 794 of Florida Statutes.

Probable Cause

The Tallahassee Police Department is working a Sexual Battery that occurred within the city limits of the City of Tallahassee. The facts of the case are as follows:

On 12/6/12 Officers were called to Kellum Hall by FSU PD reference a sexual battery that occurred somewhere off campus. According to the victim she and friends had about 5-6 shots at Potbelly's. Her friends left and she began to feel the effects of the drinks. Her memory is very broken from that point forward. She remembers being in what she thinks is a cab with a non-descript b/m in the back seat with her. She then remembers entering an apartment on the ground floor (no other description available). She remembers the male taking off her clothes then engaging in penile/vaginal sex with her as she told him to stop and tried to fight him off.

29-1

Affidavit for Search Warrant
Page 2

At some point another black male with dreads came into the room and told him to stop. The suspect led the victim into the bathroom where he completed the act.

Her next memory is the suspect dressing her then putting her on a black scooter. She told him where she lived and he dropped her off at the intersection of Call and Stadium. The victim has no idea where the incident occurred.

Phone records already obtained indicate the victim sent multiple text messages immediately following the above incident. The purpose of this search warrant is to obtain the content of those texts.

On the basis of your affiant's experience and from the facts set forth herein, your affiant believes and had good reason to believe that certain evidence, more particularly described herein of the crime of **Sexual Battery**, is now being kept within said premises.

WHEREFORE, affiant makes this affidavit and prays the issuance of a search warrant in due form of law for the search of the above described property for the hereinbefore described evidence to be seized and for the seizure and return thereof, subject to the order of the Honorable Court having competent jurisdiction, by the duly authorized officers of the Law.

794.022 Rules of evidence.--

- (1) The testimony of the victim need not be corroborated in a prosecution under s. [794.011](#).
- (2) Specific instances of prior consensual sexual activity between the victim and any person other than the offender shall not be admitted into evidence in a prosecution under s. [794.011](#). However, such evidence may be admitted if it is first established to the court in a proceeding in camera that such evidence may prove that the defendant was not the source of the semen, pregnancy, injury, or disease; or, when consent by the victim is at issue, such evidence may be admitted if it is first established to the court in a proceeding in camera that such evidence tends to establish a pattern of conduct or behavior on the part of the victim which is so similar to the conduct or behavior in the case that it is relevant to the issue of consent.
- (3) Notwithstanding any other provision of law, reputation evidence relating to a victim's prior sexual conduct or evidence presented for the purpose of showing that manner of dress of the victim at the time of the offense incited the sexual battery shall not be admitted into evidence in a prosecution under s. [794.011](#).
- (4) When consent of the victim is a defense to prosecution under s. [794.011](#), evidence of the victim's mental incapacity or defect is admissible to prove that the consent was not intelligent, knowing, or voluntary; and the court shall instruct the jury accordingly.
- (5) An offender's use of a prophylactic device, or a victim's request that an offender use a prophylactic device, is not, by itself, relevant to either the issue of whether or not the offense was committed or the issue of whether or not the victim consented.

- (d) When the offender, without the prior knowledge or consent of the victim, administers or has knowledge of someone else administering to the victim any narcotic, anesthetic, or other intoxicating substance which mentally or physically incapacitates the victim.
- (e) When the victim is mentally defective and the offender has reason to believe this or has actual knowledge of this fact.

Adult Sexual Assault Discharge Instructions Sheet

Patient label or Name _____ Date _____

During this exam several samples may have been collected from you to be used in the prosecution of the assault. In addition to this evidence, a pregnancy test was not performed. The result was Negative.

A sexual assault may result in pregnancy. You were offered medication to prevent pregnancy. You (circle one) accepted / declined this medication.

You were / were not given medication to try to protect you from getting any sexually transmitted diseases and/or other medical conditions. These medications were:

- ☒ Ceftriaxone 125 mg injection (Rocephin) antibiotic
- ☒ Azithromycin 1 gram tablets (Zithromax) antibiotic
- ☒ Metronidazole 2 g tablets (Flagyl) antibiotic
- ☐ Tetanus Booster 0.5 mL injection tetanus prevention
- ☐ Hepatitis B Vaccine 1 mL injection hepatitis prevention
- ☐ Plan B 1 tablet now and 1 in 12 hrs pregnancy prevention
- ☐ Phenergan 25 mg tablets, take one every 6 hours if needed for nausea
- ☐ _____

To be sure that the medication you were given prevented any STDs, you should visit your doctor in 2 to 6 weeks for follow up or sooner if you develop any symptoms. Your private physician, a medical clinic, or the Health Department can perform these tests. The choice of health care providers is yours, but it is very important that you take care of your body. For more information on medical care after a rape, please look at the After Sexual Assault pamphlets given to you by the rape crisis counselor.

Unlike gonorrhea, chlamydia or other minor infections, there is no treatment that will prevent or cure herpes or HIV/AIDS. There are treatments that can help to manage these STDs, so it is important to follow up with a physician and determine if you may have one of these treatable diseases. Herpes can be recognized by painful sores or blisters. If you develop these, it is best to see your physician. The risk of infection of HIV, the virus that causes AIDS, is low if there has only been one sexual encounter. However, a blood test is recommended. Until you get results from an HIV test, it may be best to practice safe sex. To protect your health and the health of your partner(s), always use condoms with spermicide from start to finish during sexual encounters.

☐ Please see a medical care provider for a follow-up visit.

☐ Please finish the Hepatitis B series at your health care provider or the health department

You need second injection in 1-2 months _____

And you need a third in 5-6 months _____

Essential Points to Consider

I. Preservation of evidence

1. The sexual assault kit taken on 12/7/12 revealed:
 - a. Generalized vaginal tears;
 - b. Bruising on the back of the right arm;
 - c. Bruise on the left thigh;
 - d. Redness on the top of the right foot;
 - e. There was DNA and blood present in the victim's underwear;
 - f. Lower back muscle spasms.

This sexual assault kit was not submitted to FLDE until January 17, 2013, 39 days after it was taken, how is the evidence preserved during that lapse of time, who had access to it, and was it stored under proper conditions to preserve the evidence?

2. The toxicology samples were not submitted to FDLE until January 17, 2013.
3. Angulo needed to immediately go to Pot Belly's and take custody of all video surveillance from the night in question which may well have revealed the identity of the man who gave the victim the shot that preceded her amnesia as to receiving the text message from an unknown person, leaving the bar, how she ended up in a cab with three unknown males, etc.. Videos from bars are known to have short shelf life because they are taped over, usually in 7 days. This was time sensitive evidence the Det. Angulo failed to obtain.
4. Angulo needed to obtain a search warrant for Winston's apartment once he was identified to:
 - o Take samples of fluids in the bedroom and bathroom;

- Take custody of the sheets described by the victim;
 - Take photos of the broken door, the bedroom and the bathroom;
 - Take custody of the scooter used by the perpetrator to remove the victim from the scene.
5. Angulo needed to obtain search warrants for Cashier's phone and text messages, the person to whom the victim gave her phone number, to determine if the text luring her out of the bar was from him.
 6. Angulo needed to obtain search warrants for Darby's phone and text messages or Winston's phone and text messages.
 7. Angulo needed to collect and test the Winston's DNA as soon as he was identified by victim on January 11, 2013, and submit same to FDLE for comparison.

II. Interview essential witnesses

1. Angulo needed to interview Chris Cashier before informing Winston, his roommate, that he was a suspect;
2. Angulo needed to interview Darby, who Cashier no doubt would have identified as being present;
3. Angulo needed to interview the outcry witness, Jenna Weisberg, the same person who notified police and accompanied the victim in the back of the squad car to the hospital.

4. Angulo needed to interview the nurse who performed the rape exam.
5. Angulo needed to interview Monique Kessler.
6. Angulo needed to interview Marcus Jordan.
7. Angulo needed to make a public statement seeking the cab driver who transported the victim and the suspect on December 7, 2012. **His report states he sent an email out to the cab drivers, but there is no such email anywhere in the 248 pages which constitutes their “entire investigation”.**
8. Angulo needed to interview the security guard who Darby alleged he spoke to on the night in question.

III. Opportunity to identify perpetrator on first day of investigation

1. Angulo could have identified the perpetrator on December 7, 2013, after taking the videoed statement of the victim wherein she made an identification of “Chris”, the only freshman starter; he (Chris Casher) was an easy person to locate in Tallahassee as he was on the football time and they probably don’t have a lot of freshman starters named Chris.
