

**America's fisheries
are worth protecting.**

SUPPORTED BY **RAMADA**
WORLDWIDE

BASS invites you to join the Angler Conservation Team (ACT) – a network of leisure anglers who volunteer to protect and enhance fishery habitats.

As an ACT member you'll have opportunities to work alongside natural resources managers and sportsmen to conserve and enhance fisheries on a local, state and federal level. Potential projects include building fish habitats, planting native aquatic vegetation and ensuring angler access to waterways.

Working together, we can provide better fisheries for generations of anglers to come. ACT now!

**Join the BASS Angler
Conservation Team today.**
